

Foundation to grant more than \$120,000

Submitted

The Community Foundation of Orillia and Area (CFOA) has announced it will grant more than \$120,000 to local charities this year.

With the help of local donors Scott and Jean Tudhope, who established the W. Scott and Jean Tudhope Endowment Fund two years ago, the CFOA has increased the amount of money that will be granted this year.

“Scott and Jean Tudhope are a shining example. Their inspiring example of philanthropy is driven by a genuine love for this community and a desire to give back,” said CFOA president Michael Gordon.

After donating nearly \$1 million to the their donor-directed endowment fund over the past two years, the Tudhopes recently handed out cheques totalling \$50,000 to 11 charitable organizations of their choice. Through the endowment fund, they have ensured a similar contribution will be provided to local charities every year. In addition to the grants provided through the new W. Scott and Jean Tudhope Fund, the CFOA granted almost \$10,000 to nine local charitable organizations from seven other donor-directed and designated endowment funds.
